特制石英砂* CUSTOMIZED MATERIAL

石英砂与树脂组成了生产材料的主要成分，而我们与FRETECH EUROPE合作开发出了专门针对花岗岩水槽生产所使用的特制石英砂，这种特制材料为我们的产品带来了：

- **绝佳的稳定性：** 特制石英砂与树脂的结合效果极佳，能够形成更加稳固和耐用的结构；
- **材质不与环境发生反应：** 从而确保产品使用过程中的安全性；
- **细致的表面处理：** 意味着液体和物质无法穿透材料，维护成本极低。

Quartz sand and resin are the primary components of our production materials. We have partnered with FRETECH EUROPE to develop a specially formulated quartz sand specifically for granite sink production. This special material has brought the following advantages to our products:

- Excellent Adhesion: The specially formulated quartz sand bonds exceptionally well with resin, creating a more robust and durable structure, enhancing the overall quality of the sinks;
- Greater granite robustness: which ensures that the products are safe to use;
- Meticulous Surface Treatment: liquids and substances cannot penetrate our material, resulting in extremely low maintenance costs.
